Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

This side gable house on the campus of St. Mary's College was constructed in 1948. It has wooden siding, numerous additions and a front porch that could be considered "Federal" in style. The house is not associated in any significant way with the history of St. Mary's City or St. Mary's College and, therefore, does not appear to meet any of the criteria for listing in the National Register of Historic Places.
