Summary Description:

Dan's Mountain Rangers House (18AG125) was examined in 1982 as part of Kenneth C. Lacoste and Robert D. Wall's survey of historic sites in the Western Maryland Coal Region. Situated on an upland flat near a spring in Dan's Mountain State Park east of Lonaconing, this site consists of a small surface scatter of domestic refuse. No surface structural remains are present, but local informants indicate that a house and barn were once located on the site. Artifacts recovered from a single 1 X 1 m test unit tend to corroborate the suggested origin of the site. Excavated artifacts include: metal eating utensils, sponge decorated white paste earthenwares, bottle glass, and cut nails. A mid to late nineteenth through twentieth century period of occupation is indicated. Because the site is relatively recent and is replicative of other sites, it is of low to moderate significance.
