Summary Description:

Site 18AN1226 is a late 19th and early 20th century projecting crib wharf near Glen Burnie in Anne Arundel County. The site projects out from nearby site 18AN1206 into Marley Creek and is thought to be associated with the nightsoil storage and staging that took place there. The site appears to have been originally considered a component of 18AN1206 and descriptions of its archeological documentation are included in a report titled, "Technical Addendum to Archeological Testing at Site 18AN1206...". However, at some point during the Section 106 compliance review process, it appears that the wharf was assigned its own site number (18AN1226) and a new site form was completed. The full report (AN 469) makes no distinction between the two sites and integrates the description of their histories. For full details and artifact tallies see the synopsis report for 18AN1206.
