

Phase II and Phase III Archaeological Database and Inventory

Site Number: 18FR704

Site Name: Willowbrook Farms #2

Prehistoric

Other name(s)

Historic

Unknown

Brief Description:

Early & Late Archaic short-term resource procurement

Site Location and Environmental Data:

Maryland Archaeological Research Unit No. 17

SCS soil & sediment code

Latitude 39.4686

Longitude -77.4183

Physiographic province Lancaster/Frederick Lowl

Terrestrial site

Underwater site

Elevation 91 m

Site slope

Ethnobotany profile available

Maritime site

Site setting

-Site Setting restricted

-Lat/Long accurate to within 1 sq. mile, user may need to make slight adjustments in mapping to account for sites near state/county lines or streams

Topography

- Floodplain
- Hilltop/bluff
- Interior flat
- Upland flat
- Ridgetop
- Terrace
- Low terrace
- High terrace
- Rockshelter/cave
- Hillslope
- Unknown
- Other

Ownership

- Private
- Federal
- State of MD
- Regional/county/city
- Unknown

Nearest Surface Water

Name (if any) Tuscarora Creek

- | Saltwater | | Freshwater | |
|------------------------------------------|----------------------------------------------|--------------------------------------------------|--------------------------------|
| Ocean <input type="checkbox"/> | Estuary/tidal river <input type="checkbox"/> | Stream/river <input checked="" type="checkbox"/> | Swamp <input type="checkbox"/> |
| Tidewater/marsh <input type="checkbox"/> | Lake or pond <input type="checkbox"/> | Spring <input type="checkbox"/> | |

Minimum distance to water is 76 m

Temporal & Ethnic Contextual Data:

- Paleoindian site
- Archaic site
- Early archaic
- Middle archaic
- Late archaic
- Unknown prehistoric context

Brief Description:

Early & Late Archaic short-term resource procurement

Unknown

External Samples/Data:

Collection curated at MAC

Additional raw data may be available online

Summary Description:

The Willowbrook Farms #2 site (18FR704) is one of several small, scattered, temporary campsites that were identified during Phase I work for a planned subdivision north of Frederick, MD. It was probably a short-term use site, utilized as the area was traversed by small groups cycling through the territory. Soils at the site consist entirely of the Augusta series characterized as deep, somewhat poorly drained soils that are weakly to moderately well-developed.

The Phase I survey at 18FR704 was conducted during the summer of 1995 and consisted of surface collection. Following recovery, artifacts were piece plotted to determine site boundaries and identify artifact concentrations. The site yielded a total of 49 artifacts during Phase I work, including 4 primary flakes (3 rhyolite, 1 quartz), 18 secondary flakes (14 rhyolite, 4 quartz), 9 tertiary flakes (1 rhyolite, 8 quartz), 5 biface fragments (3 rhyolite, 2 quartz), 2 projectile point fragments (1 rhyolite, 1 quartzite), a quartz scraper, a utilized/retouched rhyolite flake, 3 rhyolite "multipurpose tools", a piece of rhyolite shatter, and a diabase hammerstone. The two projectile points are a quartzite bifurcated point and a resharpened side-notched point, suggesting that the site dates to the Early and Late Archaic periods.

A total of 24 shovel test pits were excavated across the site locus based on the site size calculated during the Phase I survey. All of the prehistoric artifacts recovered during Phase II were found within the plowzone layer. In addition, a total of two 1.5 X 15 meter shallow trenches were mechanically stripped within areas of higher artifact concentration (based on the piece-plotting of Phase I survey and Phase II shovel test materials). No cultural features were found in any of the trenches. In addition to the 49 artifacts recovered during the Phase I survey a total of 77 artifacts comprise the total cultural assemblage at Site 18FR704. The Phase II artifact inventory included 21 secondary flakes (13 rhyolite, 8 quartz), 5 tertiary flakes (4 rhyolite, 1 quartz), 1 quartz biface fragment, and 1 modified quartz chunk.

These results suggest that this site may have functioned as a short-term-use camp. The Phase II research at Willowbrook Farms #2 helped to refine the physical boundaries of the site, but ultimately the work determined that 18FR704 lacks integrity and is not culturally significant. Little additional information would be gained through further study at the site.
