

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

1983 Basalik, K.J.
Preliminary Document Study: Block 1146, Oliver Place, Baltimore, Maryland.
Submitted to the Van Dyke Building Corporation
Library ID No: 00005561 Catalog/Shelving ID: BC 1A

Research Firm/Institution:

Cultural Heritage Research Services, Inc.
PO Box 9
Sharon Hill, PA 19079

Sites examined:

18BC45

Project Details:

Project Justification:

This report is a preliminary background study conducted prior to testing at 18BC45 in 1983. The work was carried out due to plans for a new housing development on the block. Under the provisions of the National Historic Preservation Act, the National Environmental Preservation Act and the Archaeological Preservation Act, actions which are funded, approved or licensed by Federal or State agencies must take measures to identify and protect significant cultural resources.

Project Objectives:

-Provide a generalized history of the project area's physical development, specific events, and social makeup.
-Provide a general model of where and if archeological resources, such as wells and privies, have survived the processes of urban growth and change.

Research Potential:

Based on the extremely disturbed nature of Site 18BC45, it cannot be considered a significant archeological resource.
