

# Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

## REPORT INFORMATION:

1964 Hutchinson, H.H., W.H. Callaway, and C. Bryant  
Report on the Chicone Site #1 (18-Dor-11) & Chicone Site #2 (18-Dor-10). The Archeolog 16(1): 14-19.  
Library ID No: ARCLOG16-

Research Firm/Institution:

The Sussex Society of Archeology and History

Sites examined:

18DO11

Project Details:

|           |   |   |
|-----------|---|---|
| Phase I   | Project Justification:<br>This was a "pure research" project. | Project Objectives:<br>-Characterize the nature of Sites 18DO10 and 18DO11. |
| Phase II  |   |   |
| Phase III | <input checked="" type="checkbox"/>                           |   |

Research Potential:

See below for remaining research questions at site 18DO11.

## REPORT INFORMATION:

1980 Jull, J.  
Preliminary Report of Excavations at "Horne". The Archeolog 32(1): 1-41.  
Library ID No: ARCLOG23-

Sites examined:

18DO58

Project Details:

|           |   |  |
|-----------|---|--|
| Phase I   | Project Justification:<br>This was a "pure research" project. | Project Objectives:<br>-Characterize the 17th and 18th century components at the site. |
| Phase II  |   |  |
| Phase III | <input checked="" type="checkbox"/>                           |  |

Research Potential:

See below for remaining research questions at site 18DO58.

## REPORT INFORMATION:

1981 Leone, M. and R. Dent  
Cultural resources reconnaissance of land to be impacted by the construction of an erosion control device to be placed along the shoreline of the Choptank River on the University of MD's Center for Environmental and Estuarine Studies near Cambridge, MD.

Research Firm/Institution:

University of Maryland Archeology Staff  
University of Maryland  
College Park, MD

Library ID No: 00000187      Catalog/Shelving ID: DO 18

Sites examined:

18DO58

Project Details:

|           |                                     |   |
|-----------|-------------------------------------|---|
| Phase I   | <input checked="" type="checkbox"/> | <b>Project Justification:</b>   |
| Phase II  |                                     | The purpose of the project was to survey land on the University of Maryland's property at Horn Point to identify cultural resources therein prior to proposed construction for shoreline erosion control. |
| Phase III |                                     |   |

|   |
|---|
| <b>Project Objectives:</b>  |
| -Identify potential cultural resources that may be affected by proposed construction. |

Research Potential:

The Horn Point Site (18DO58) is an important 17th and 18th century site for understanding life in Colonial Dorchester, Maryland. Very few colonial tracts have managed to survive intact in about the same size anywhere on the Chesapeake and this structure is an important part of the Horn Point heritage. The site is not confined to the plowzone and does have subsurface integrity. While the majority of the artifacts were not found in a datable context, they did help to establish by their mere presence the patterns of early domestic life on the lower Eastern Shore of Maryland. In terms of its prehistoric component, excavations at the Horn Point Site have barely touched upon the full extent and depth of these deposits and this site has the potential to answer research question related to the Late Archaic through the Late Woodland time period. However, as the site is under no immediate threat of destruction and is an important cultural feature, no further work is recommended at the site.

**REPORT INFORMATION:**

1983 Schiek, M.J. and R.A. Thomas  
 Archaeological Studies at Horn Point, Dorchester County, Maryland.  
 Submitted to Andrews, Miller & Assoc., Inc.  
 Library ID No: 00000190 Catalog/Shelving ID: DO 20B

Research Firm/Institution:  
 Mid-Atlantic Archaeological Research, Inc.  
 Newark, DE

Sites examined:

18DO129

Project Details:

|           |                                     |  |
|-----------|-------------------------------------|--|
| Phase I   | <input checked="" type="checkbox"/> | <b>Project Justification:</b>  |
| Phase II  |                                     | The purpose of that study was to determine the presence or absence of cultural resources within the area of the proposed right-of-way for the construction of a wastewater treatment facility and the associated proposed sewer lines. |
| Phase III |                                     |  |

|   |
|---|
| <b>Project Objectives:</b>  |
| -Determine if there were any culturally significant deposits within the right-of-way. |

Research Potential:

See below for remaining research questions for 18DO129.

**REPORT INFORMATION:**

1984 Schiek, M.J. and E.C. Goodley  
 Archaeological Site Examination 18DO129, Dorchester County, Maryland.  
 Submitted to Maryland Environmental Service  
 Library ID No: 00000191 Catalog/Shelving ID: DO 20C

Research Firm/Institution:  
 Mid-Atlantic Archaeological Research  
 P.O. Box 676, 9 Liberty Plaza  
 Newark, DE 19711

Sites examined:

18DO129

Project Details:

|           |                                     |  |
|-----------|-------------------------------------|--|
| Phase I   |                                     | <b>Project Justification:</b>  |
| Phase II  | <input checked="" type="checkbox"/> | Phase II research was conducted to further investigate the nature of the brick foundations and to determine if the site was NHRP eligible. |
| Phase III |                                     |  |

|   |
|---|
| <b>Project Objectives:</b>  |
| -Define the nature of the brick feature found in 1983.  |
| -Gather data that would provide insight into the social and economic status of the tenant/ owner of the dwelling under investigation. |
| -Identify subsequent structures.  |
| -Determine early use of the property.   |

MAC Accession: 1984.015

Research Potential:

The Marty I Site (18DO129) sits on property that has been deeply plowed and otherwise disturbed by activity post-dating the occupation of the dwelling. The low numbers and general nature of the artifact assemblage has a low potential for contributing further significant data regarding the history of the site or the region.
