

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

2019 Emory, S. A., W.B. Arnold, & J. Tyler

Phase IB archaeological survey MD 355-Clarksburg Shared Use Path and MD 355 and MD 121 intersection improvements, Clarksburg, Montgomery County, Maryland. Year: 2019
Submitted to Maryland Historical Trust

Library ID No: 95003032 Catalog/Shelving ID: MO 315

Research Firm/Institution:

Applied Archaeology and History Associates, Inc.
615 Fairglen Lane
Annapolis, Maryland 21401

Sites examined:

18MO742 NRHP Eligible: [Justification](#) 18MO743 NRHP Eligible: 18MO744 NRHP Eligible: [Justification](#) 18MO745 NRHP Eligible: [Justification](#) 18MO746 NRHP Eligible: [Justification](#)

Project Details:

Phase I	<input checked="" type="checkbox"/>	Project Justification: The Montgomery County Department of Transportation (MCDOT) has proposed the development of a sidewalk and shared use path along North Frederick Road (MD 355) and Clarksburg Road (MD 121) along with associated intersection improvements in Clarksburg, Montgomery County, Maryland.
Phase II	<input type="checkbox"/>	
Phase III	<input type="checkbox"/>	

MAC Accession: N/A

Project Objectives: The goal of the Phase IB survey was to determine the presence or absence of potentially significant archaeological resources within four identified portions of the Study Area.

Research Potential:

Extensive disturbance documented at each of the three sites has significantly impacted the integrity of archaeological deposits. Furthermore, demonstrable evidence of intact, data yielding deposits, as well as the ability to contribute to defensible, important research topics is lacking due to the extent of disturbance which has impacted the integrity and information potential of the sites.

REPORT INFORMATION:

2019 Arnold, W.B., J. Tyler, M. Cochran, J. Brannock, A. Glass, & R. Killion

Phase II archaeological evaluation of 18MO742, 18MO745, and 18MO746: MD 355-Clarksburg shared use path and MD 355 and MD 121 intersection improvements, Clarksburg, Montgomery County, Maryland.
Submitted to Maryland Historical Trust
