

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

1969 Beckett, C., L. Neher, J. Pusey
The Muncaster Mill Site.
Submitted to the Montgomery County Historical Society
Library ID No: 00006226 Catalog/Shelving ID: MO 98

Research Firm/Institution:
Walt Whitman High School
7100 Whittier Boulevard
Bethesda, MD 20817

Sites examined:

18MO33

Project Details:

Phase I	Project Justification:	Project Objectives:
Phase II	Pure research conducted by a group from a local high school.	-Work was primarily concerned with locating the races that powered the mills.
Phase III	<input checked="" type="checkbox"/>	

Research Potential:

The research potential at Site 18MO33 is entirely unknown, given the lack of professional research conducted at the site. If deposits do remain intact, the site could provide significant information regarding not only 19th century milling technologies, but possible 18th century practices if deposits from the earlier mill(s) built by Joseph Elgar, Sr. are present. Attempts should be made to examine the site should future development threaten the site.
