

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

1985 Davidson, T.E.
Archeological investigations at Beverly Plantation.

Library ID No: 00006099 Catalog/Shelving ID: SO 7

Sites examined:

18SO136 18SO135 18SO133 18SO134 18SO139 18SO137 18SO138

NRHP Eligible: N

[Justification](#)

Additional sites as listed above:

18SO136

Phase I	<input checked="" type="checkbox"/>	Project Justification: See below.	Project Objectives: See below.
---------	-------------------------------------	--------------------------------------	-----------------------------------

Phase III

MAC Accession: 1992.075.002

Research Potential:

See below.

REPORT INFORMATION:

2014 Otter, E.
ECI Biogas I Facility. Phase II archaeological investigation 18SO136 Isaac Barnes House site, Somerset County, Maryland.
Submitted to Maryland Historical Trust

Library ID No: 95002125 Catalog/Shelving ID: SO 26

Research Firm/Institution:

Edward Otter, Inc.
1704 Camden Avenue
Salisbury MD 21801

Sites examined:

18SO136

NRHP Eligible: N

[Justification](#)

Project Details:

Phase I		Project Justification:	Project Objectives:
---------	--	------------------------	---------------------

Phase II	<input checked="" type="checkbox"/>	Due to the planned construction in the vicinity of a potentially significant site, 18SO136, archaeological work was required by the Maryland State Historic Preservation Office prior to any ground disturbance.	See below.
----------	-------------------------------------	--	------------

Phase III

Research Potential:

Without being able to associate features with particular occupations there is no context for evaluating the recovered materials. This is critical to establishing any research design for additional work at this site. Given the poor physical context found at the site and doubts raised by historic research, it is concluded that the site lacks research potential and is not eligible for inclusion on the National Register of Historic Places.
