

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

1981 Eaton, E.
Site File for the Golden Eagle Landing Site (18SO94).

Research Firm/Institution:

Washington High School Skipjack Club
10902 Old Princess Anne Rd.
Princess Anne, MD 21853

Library ID No: 18SO94 SF Catalog/Shelving ID: Site Files

Sites examined:

18SO94

Project Details:

	Project Justification:	Project Objectives:
Phase I		
Phase II <input checked="" type="checkbox"/>	This was a "pure research" project undertaken by a group of curious high school students and affecting only a small portion of the site.	-Determine is artifacts collected eroding from surface deposits were preserved beneath the gound surface and to what extent they were distrubed.
Phase III		

Research Potential:

Very little of Site 18SO94 has been excavated. What little data MHT has indicates that intact deposits may remain preserved beneath a shallow layer of soil disturbed in historic times. Additional research is warranted to determine if the site does indeed represent a Late Woodland hamlet.
