

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

2004 Berkey, T., T. K. Knoerl, & S. Langley
Investigation of vessel remains in the St. Mary's River near Cherryfield Point, Maryland.
Submitted to Maryland Historical Trust

Library ID No: 95009475 Catalog/Shelving ID: ST 316

Sites examined:

18ST564

Project Details:

Phase I	<input checked="" type="checkbox"/>	Project Justification: Over the last three years the Maritime Archaeological and Historical Society (MAHS) has conducted three weekend field schools on a wreck in the St. Mary's River near Cherryfield Point, MD. The site offered MAHS an excellent opportunity to guide its students through mapping exercises using trilateration, GPS, and laser range finding equipment provided by the National Park Service.
Phase II	<input checked="" type="checkbox"/>	
Phase III	<input type="checkbox"/>	

Project Objectives: The 2001, 2002, and 2003 weekend field schools attempted to record the extent of the wreckage and gather the general dimensions to aid in identifying the vessel's type.
