

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

1982 Thomas. R.A.
Phase I Archaeological Investigations, Brick Row, Easton, Maryland.
Submitted to Housing Authority, Town of Easton
Library ID No: 00005231 Catalog/Shelving ID: TA 4

Research Firm/Institution:

Mid-Atlantic Archaeological Research, Inc.
Box 676
Newark, DE 19711

Sites examined:

18TA204

Project Details:

Phase I	<input checked="" type="checkbox"/>	Project Justification:
Phase II	<input checked="" type="checkbox"/>	The funding of a Housing Authority of the Town of Easton project by the United States Department of Housing and Urban Development necessitated a cultural resources investigation of the proposed project site. The project consisted of the construction of 15 turnkey public housing units within the limits of the Easton Historic District of the National Register of Historic Places. Ten of those units were to be constructed within the site area. A Phase I/II evaluation of the site was undertaken in late 1982.
Phase III		

Project Objectives:
-Determine the horizontal and vertical boundaries of the site
-Evaluate the integrity of the site

MAC Accession: 1992.062

Research Potential:

The Brick Row Site (18TA204) consists of 11 non-extant brick row houses that were constructed during the late 19th century. Based upon the available documentary evidence, the earliest recorded occupation at Brick Row dates to ca. 1870, which is the approximate date of construction of the row houses. It was the opinion that the remaining cultural resources at the site did not constitute a significant research data base. Therefore, the proposed public housing project at Brick Row would not have an adverse effect on the cultural resources. The Housing Authority of the Town of Easton project was completed.
