

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

1994 Gibb, J.G.
Phase IB Archeological Identification Survey U.S. Rt. 50 Salisbury Bypass Wetlands Mitigation, Wicomico County, Maryland.
Submitted to Maryland Department of Transportation, State Highway Administration
Library ID No: 00005122 Catalog/Shelving ID: WC 27

Research Firm/Institution:

James G. Gibb
PO Box 378, 3940 4th Street
North Beach, MD

Sites examined:

18WC101
NRHP Eligible: N
[Justification](#)

Project Details:

Phase I	<input checked="" type="checkbox"/>	Project Justification: 18WC101 is located within the area of potential effects of the proposed US 50 Salisbury By-Pass Wetlands Mitigation, Wicomico County, Maryland. Construction of wetlands required extensive excavation.
Phase II	<input type="checkbox"/>	
Phase III	<input type="checkbox"/>	

MAC Accession: 1995.004

Project Objectives: -Inventory archeological and architectural resources within the area of potential effect.

Research Potential:

See below for remaining research questions at 18WC101.

REPORT INFORMATION:

1995 Simons, M.A. and J.H. Maymon
Phase II Investigations of Site 18WC101 for the Proposed U.S. Rt. 50 Salisbury By-Pass Wetlands Mitigation, Wicomico County, Maryland.
Submitted to Maryland Department of Transportation, State Highway Administration
Library ID No: 00005123 Catalog/Shelving ID: WC 28

Research Firm/Institution:

R.C. Goodwin & Associates, Inc.
337 East Third Street
Frederick, MD 21701

Sites examined:

18WC101
NRHP Eligible: N

Phase I	<input type="checkbox"/>	Project Justification: 18WC101 is located within the area of potential effects of the proposed US 50 Salisbury By-Pass Wetlands Mitigation, Wicomico County, Maryland. Construction of wetlands required extensive excavation.
Phase II	<input checked="" type="checkbox"/>	
Phase III	<input type="checkbox"/>	

MAC Accession: 1995.004

Project Objectives: -Determine the nature, age, and function of each archeological resource. -Determine the horizontal and vertical boundaries of each resource. -Determine the integrity of each resource.

Research Potential:

Although the Parsons Site (18WC101) represents a series of short-term prehistoric occupations dating from the Late Archaic period through the Late Woodland period, it lacks significant data pertaining to local or regional themes. No definitely diagnostic artifacts were recovered and no cultural features were identified. It has been adversely affected by the erosion/deflation of the sand dune and by subsequent plowing. This destructive combination appears to have destroyed any features associated with prehistoric use of the site, and has made impossible the delineation of any activity areas with substantive research potential.
